SECTION - E (Compulsory)

CASE STUDY

Neha, a computer science graduate, launched a food delivery start-up in her college town. She focused on delivering healthy homemade meals at affordable prices for students staying in hostels. Initially, the start-up gained quick popularity, but soon she faced issues like delivery delays, shortage of funds, and competition from larger food delivery apps.

Questions

1. What was the main business idea behind Neha's start-up?
2. Identify two management challenges faced by her.
3. Suggest one solution to overcome the financial difficulties of her start-up. (3×4=12)
